Flood-Proof Single Exterior Door TT6

Access door for the field of potable water supply, especially in areas where flooding is likely. Flood-proof up to 2m water head.

Exterior door, flood-proof up to a water gauge of 2 m, opening to the outside (pressure side), ready for installation, double skinned, completely made from 1.4307 (AISI 304 L) stainless steel.

Door and frame frame shielded arc-welded and acid bath cleaned before washing, drying and surface passivation.

Optional with cylinder lock for increased security (operable from the pressure side).
